REGULATORY - CE	Approved
RoHS	Approved

Description

The Teatro[®] TFS1.0 offers the same front channel audio performance as the TCE1.5 in three separate cabinets. It is designed to be used as the front and surround speakers in a complete 5.1 to 7.2 surround system or as a complement to the TCE1.5 or the TSB3.0 Sound Bar speaker as rear channel surround speakers.

Features

- One .75 inch (19.1 mm) silk/synthetic soft dome tweeter
- Two 3 inch (76.2 mm) ultra-long throw polypropylene woofers with butyl rubber surrounds
- Two 3 inch (76.2 mm) ultra-long throw polypropylene bass radiators with butyl rubber surrounds
- Absolute Phase[®] Crossover networks ensure that the speaker drivers are acoustically and electronically "in phase" and moving in unison
- Achieves three-channel audio out of only two speakers
- A depth of only 1.5" (38.1 mm)
- Included Accessories: smoked acrylic tabletop stand, wall mount

Applications

A pair of TFS1.0 units consumes minimal wall space while bringing superior audio. The TFS1.0 is ideal for spaces where a dedicated center channel speaker is not a viable option.

For optimal sound, use PhaseTech's P3-35 3-Channel Amplifier with a pair of TFS1.0s.

Warranty Information

The TFS1.0 comes with a limited ten (10) year warranty. A limited three (3) year warranty comes on all electronics.

Products not sold through an authorized dealer/distributor will not be supported by the factory warranty. Warranties are non-transferable.
